Hi Kathy. Attached is a figure showing all the wells at the refinery. For reference, the LWMA is outlined in RED. A second figure is also included that shows only the compliance wells at the site. Please let me know if you need anything else. Thanks.

Kathy, here are three figures that are already exist.

<![if !supportLists]>•<![endif]>NWOD Site Plan – 11x17 that shows all three segments of NWOD

<![if !supportLists]>•<![endif]>NWOD Site Plan with LWMA Vicinity Map Call out. This 11x17 is the same as the NWOD Site Plan, with a call out of the location of the LWMA Vicinity Map.

<![if !supportLists]>•<![endif]>LWMA Vicinity Map. This is from the LWMA Bank Characterization Summary Report. It is 8.5x11, not a 11x 17 figure. I am working on a 11x17 map and should have it by tomorrow or Monday.

I do not have a regional map handy of the entire drainage from the UTA property down to GSL. I will get one put together for you.

Let me know if the NWOD Site Plan is what you are looking for, or if you would like it modified.

**Subject:** Re: NWOD

Can you send me an 11 x 17 map that illustrates the 3 segments and another map of 11 x17 that illustrates the Segment 2b with the LWMA and oily ponds. Lastly an 11 x 17 map of the entire drainage from the UTA property down to GSL. I need them for meetings. Also can I get a map from Chevron of the locations of the groundwater monitoring wells?

Thanks,

Kathy
